Basic operation

Status indicator

Instructions	LED status	Voice prompts
Power on	Solid blue, approximately 1 second	Power on
Power off	Solid red, approximately 2 seconds	Power off
Standby	Blinking blue once every 8 seconds	/ Standby Mode
Pairing	Blinking red and blue alternately	Pairing Mode
Incoming call	Blinking blue quickly	Chime
Battery low	Blinking red	Battery low
Charging	Solid red while connected and in Charging Mode Solid blue after fully charged / Charging complete	
Power on	Press and hold the Multifunction button for approx. 2 seconds. The earphone will announce, "Power on" and the LED will flash blue once.	
Power off	Press and hold the Multifunction button for approx. 5 seconds. The earphone will announce, "Power off" and the LED will flash red once.	
Clear paired list	Make sure the earphone is turned off, press and hold the Multifunction button until the LED indicator flashes red and blue alternately (About 7 seconds), then release the Multifunction button. Your paired list has now been wiped clean and returned to factory original settings.

Safety and care

Using earphones at high volumes for extended periods of time will result in permanent hearing damage. It is recommended that listeners keep volume levels low to moderate at all times for your safety.

Do not use while driving a car, cycling, operating heavy machinery, or performing other activities that require the user to hear their surrounding sounds. It is dangerous and can lead to injury.

Do not use any corrosive cleaners or oils to clean the earphone.

If the earphone comes in contact with liquids, quickly wipe away. If submerged in water, do not turn the earphone on until completely dried. This may result in electrical shock or malfunction. Please Note: Liquid submersion voids the warranty.

Keep the earphone and packaging out of the reach of small children.
